

DOMESTIC RENEWABLE ENERGY SYSTEMS INSURANCE INFORMATION

The Naturesave Home and Annual Travel insurance policy has been extended to include renewable energy systems up to 50 Kw installed at a Naturesave Household Insurance customer's home, to take advantage of the Feed-in Tariff income now available.

The cover available is as follows:

MATERIAL DAMAGE

Under Section Two – Contents, renewable energy systems can be added to the existing policy. This insurance is available for wind turbines, solar photovoltaics, hydro systems, micro combined heat and power and anaerobic digestion. Systems **must** be eligible for the **Feed-in Tariff** and have been installed under the **Microgeneration Certification Scheme**. An additional premium will apply.

PUBLIC LIABILITY

Under Section Four – Legal Liability to the Public. The cover has been extended to include third party property damage and bodily injury emanating from your renewable energy systems.

MECHANICAL BREAKDOWN

Under Section Ten – Renewable Energy. Insurance cover is included for mechanical breakdown over and beyond any warranty cover you have in place.

LOSS OF REVENUE

Under Section Ten – Renewable Energy. We will remunerate you for loss of revenue following physical loss or damage to your renewable energy systems covered under Section Two – Contents and/or mechanical breakdown covered under Section Ten – Renewable Energy.

In the event that you have any queries, please do not hesitate to contact us.

Please note – cover is offered as part of the wider household insurance policy and is not available in isolation.
