

## **Naturesave Trust – funding guidelines**

The following are intended as a basis for projects funded and may be pragmatically altered / amended from time to time.

1. Funding is available for projects submitted by any organisations whether they be charities, voluntary organisations or businesses. The Trust is unable to fund individuals.
2. Projects must be entirely based within the UK.
3. Grants are made to projects which specifically address the promotion and implementation of sustainable development, environmental and / or conservationist improvement and or general 'green' issues.
4. Applications for funding must be forwarded with a completed funding application form, together with any further information that the applicant thinks inform the Trustees further and support their application.
5. Applications that cannot convey (to the best of their ability) what they are trying to achieve on the application form, have a lower chance of success. The best applications are those that are succinct, concise and relevant.
6. Applications for funding are dealt with on a rolling basis – there are no deadlines.
7. Grants given may be subject to various criteria and funds are only released once these criteria have been met.
8. The Naturesave Trust does not fund 'research' projects.
