DOMESTIC RENEWABLE ENERGY SYSTEMS INSURANCE

INFORMATION

Our Naturesave Home and Travel insurance policy includes renewable energy systems up to 50Kw installed at a Naturesave Household Insurance customer's home.

The cover available is as follows:

MATERIAL DAMAGE

Renewable energy systems can be added to the existing policy. This insurance is available for wind turbines, solar photovoltaics, hydro systems, micro combined heat and power and anaerobic digestion. Systems **must** be eligible for the **Feed-in Tariff** and have been installed under the **Microgeneration Certification Scheme**. An additional premium will apply.

PUBLIC LIABILITY

The cover has been extended to include third party property damage and bodily injury emanating from your renewable energy systems.

MECHANICAL BREAKDOWN

Insurance cover is included for mechanical breakdown over and beyond any warranty cover you have in place.

LOSS OF REVENUE

We will remunerate you for loss of revenue following physical loss or damage to your renewable energy systems covered under Section Two – Contents and/or mechanical breakdown covered under Section Ten – Renewable Energy.

Premiums start at £50 with an excess of £50 in respect of Material Damage and 3 days waiting period in respect of loss of revenue.

In the event that you have any queries, please do not hesitate to contact us.

Please note – cover is offered as part of the wider household insurance policy and is not available in isolation.

Protecting you & the environment since 1993
