

Collingwood Garden Rangers

November 2016 – April 2017

This is the garden at the start of the project.

The Garden Rangers with help from some 6th form students dug this up in preparation for the artificial lawn.

And this is it now!! Once the lawn was

installed we bought the furniture. We are going to plant creeping plants on the left hand side to grow up the fence.

The Naturesave Plaque will be placed on the wall in recognition of the money donated to secure this project.
